

ITIN-Friendly, CD-Secured Business Loans & Lines of Credit

Banks and Credit Unions That Lend Against a Pledged CD/Deposit — and What They Require

Prepared: June 4, 2026 **Scope:** US banks and credit unions offering **CD-secured** (bank term) / **share-secured** (credit-union term) **business loans and lines of credit** that are ITIN-friendly, with **approval requirements** for each. Includes the closely related deposit-secured business cards and business credit-builder products, since for an ITIN owner they solve the same problem.

Why this product matters for an ITIN owner — and one honest caveat

A **CD-secured loan** lets you pledge a certificate of deposit (or savings) as collateral; the lender places a lien on it and lends you cash. Because the loan is **fully cash-collateralized**, the lender's risk is near zero — so approval rests on **the deposit, not your credit history or an SSN**. That makes it arguably the single most reliable on-ramp to US business credit for an ITIN-only, thin-file owner: little or no credit check, no meaningful FICO hurdle, a low rate, and a path to building a credit file. At credit unions the same product is called **share-secured** or **share-certificate-secured**.

Typical terms (industry baseline): - **Borrow up to 90–100%** of the pledged CD/share balance (credit unions often lend the full balance). - **Rate = the CD/share rate + ~2–3 percentage points**. Your *net* cost is just that spread, because the CD keeps earning interest while pledged. - **Minimum deposit** can be as low as **\$500–\$1,000**. - **Little/no credit check** (fully secured); the CD must stay at the lending institution and is frozen for the term.

The honest caveat (please read): A CD-secured **personal** loan is offered almost everywhere. A CD-secured **business** product — in the business's name, reporting to *business* bureaus — is a **narrow niche**; few institutions publish one, and it's often a branch/relationship arrangement rather than a web product. This report separates the **confirmed business products** from the (far more common) **personal CD-secured loans an owner can use for the business**, and flags ITIN acceptance as "confirmed" vs. "verify at branch." We chose accuracy over a padded list.

The make-or-break question to ask every lender: *"Do you report this loan to the credit bureaus — and will you report it under my ITIN?"* The entire credit-building thesis fails if they don't. Some lenders don't report properly under an ITIN.

PART 1 — The Strongest Confirmed Matches (start here)

Lender	Type	Product	ITIN	Key approval requirements
Credit Strong — Business	Fintech/ bank credit- builder	Cash-secured commercial installment loan (funds locked in a commercial savings account; you don't receive cash)	Explicit — SSN or ITIN	Own ≥25% of the business, no other ≥25% co-owner, 18+, US resident + physical US address; no credit-score gate . ~\$115–\$199/mo. Reports to Equifax Business, Experian Business, PayNet, SBFE
Bank of America — Cash Secured Business Line of Credit	National bank	True business LOC; line = your deposit; graduates to unsecured ~12 mo	ITIN accepted on BofA business apps ("SSN or ITIN"); confirm for this product . PG/ID expected	Min \$1,000 deposit (= line); ~6 months in business + ~\$50k revenue ; BofA business checking. Reports to business bureaus
BofA — Business Advantage Unlimited Cash Secured (card)	National bank	Secured business credit card (revolving)	ITIN accepted per reviews + BofA biz apps; PG required (personal credit checked)	Min \$1,000 deposit (= limit); no minimum FICO ; reports to business bureaus only (not consumer in good standing); D&B score access
Carver Federal Savings Bank	MDI/CDFI bank (NYC)	Business microloan \$500–\$25k that MUST be secured by a Carver savings/CD account	Unverified — call to confirm ITIN	Maintain a Carver Business Checking account; ≤12-month term; designed to build credit (light check)
Lower East Side People's FCU	CDFI credit union (NYC)	Publishes " Secured Business Loans " (fixed for life of loan)	ITIN services; enroll with SSN or ITIN	Membership; serves startups & operating businesses (collateral type — share/CD vs other — verify)
Fifth Third	Regional bank	Secured business LOC that explicitly accepts CDs as collateral	Unverified	Apply by phone/branch; business % unpublished (personal version: 50–100% of collateral)

These six are the core answer to your question. Credit Strong Business is the cleanest ITIN + cash-secured + business-bureau-reporting match; BofA is the strongest mainstream bank product; Carver and LES People's are the clearest *deposit-secured business loan* products at mission institutions.

PART 2 — National & Regional Banks

Reality: Genuine CD-secured *business* products are rare here. **BofA** (Part 1) and **Fifth Third** are the standouts; everyone else offers a CD-secured **personal** loan an owner can use for the business. Banks broadly accept an ITIN to **open a CD/account**, but few document ITIN policy on a secured *business* loan — confirm at a branch.

Bank	CD-secured business product?	ITIN	Terms (personal unless noted)	Reports to
Bank of America	Yes (Cash Secured Business LOC + secured card)	Biz apps take SSN/ITIN	Line = deposit; min \$1,000	Business bureaus
Fifth Third	Yes (CDs eligible collateral on biz LOC)	Unverified	Personal: 50–100% of collateral, \$2k–\$500k	Unverified (biz)
Regions	Personal-only	Unverified	Up to 100% ; CD min \$2,000 / savings \$250; non-customers can apply online	Consumer

Bank	CD-secured <i>business</i> product?	ITIN	Terms (personal unless noted)	Reports to
Huntington	Personal-only	Unverified	Up to deposit value, max \$500k; 7–25% APR	Consumer
TD Bank	Personal-only	Accounts: yes; loan unverified	\$5k–\$50k; prime + 2% ; credit-builder	Consumer
Wells Fargo	Personal-only	Accounts: yes	Personal \$3k–\$250k	Consumer
KeyBank	Personal-only	Unverified	>\$5,000; up to 60 mo	Consumer
BMO	Personal-only	Accounts: SSN or ITIN; loan unverified	Low rate vs savings; needs some credit history	Consumer
Popular / Banco Popular	Personal published (biz-friendly)	Likely friendly — confirm	Min \$1,000; max lesser of balance or \$100k	Unverified
Citibank	Not published	Documented: ITIN for accounts/CDs/business	—	Unverified
U.S. Bank / PNC	Secured by business-asset lien, not CDs	Unverified	PNC secured line starts \$100,001	Business
Chase	Not published; 2-yr time-in-business gate	ITIN for cards/accounts published	~\$500k, ~8.95%	Business
Truist / Comerica / Citizens / M&T	Not published (business-asset collateral)	Unverified	—	Business/unverified
Fulton Bank (regional)	Yes (CD-secured line, up to 100% of CD)	Unverified	Up to 100% of CD	Unverified
Bank of Utah (regional)	Yes (personal <i>and</i> business)	Unverified	Light (secured)	Unverified
Arvest (regional)	Yes (CD loans & lines)	Unverified	—	Unverified

Best mainstream picks: BofA Cash Secured Business LOC (if you have ~6 mo/\$50k revenue), or — for a pure cash-collateral loan in the owner's name — **Regions** (non-customers can apply online, up to 100%, \$250 minimum), **TD** (credit-builder), or **BMO** (explicit ITIN on the deposit account). For a published CD-secured *business* loan, look to **Fulton, Bank of Utah, Arvest** (smaller banks).

PART 3 — Credit Unions (Share-Secured)

Nearly every credit union offers a **personal** share-secured loan (borrow up to 100% of your savings/certificate, minimal credit check, reports to consumer bureaus) — the standard ITIN-friendly credit-builder. A dedicated share-secured *business* product is rarer. The ITIN-friendly, immigrant-serving CUs below (many in the **Juntos Avanzamos / Inclusiv** network — 145 CUs that have accepted ITINs for 20+ years) are the best bets.

Credit Union	Share/CD-secured <i>business</i> loan?	ITIN	Terms	Reports to	Region
Lower East Side People's FCU	Publishes "Secured Business Loans"	Yes (SSN or ITIN)	Fixed for life of loan; verify collateral type	Unverified	NYC
Self-Help FCU	Personal-only (separate business lending)	Yes (ITIN program, no FICO)	Up to 100% of share/certificate	Consumer: yes	Joinable nationwide via \$5 nonprofit donation

Credit Union	Share/CD-secured business loan?	ITIN	Terms	Reports to	Region
Point West CU	* Personal-only (sep. business loans ≤\$250k)	* Yes	Up to 100% of shares	Consumer: yes	Oregon
Neighborhood Trust FCU	* Credit-builder (secured) + business LOC offered	* Yes (ITIN at same rates)	No upfront deposit on builder	Consumer: yes	NYC
Brooklyn Coop FCU	* Secured (savings) + lends to no-SSN members	* Yes (ITIN apps; no-SSN lending)	Up to balance	Consumer (implied)	Brooklyn
Latino Community CU	* Personal-only confirmed; business unverified	* Yes (ITIN Certified Acceptance Agent)	Borrow against shares	Consumer: yes	NC
Guadalupe CU	Personal-only (savings/CD/MMA)	Yes ("ITINs welcome")	Fixed/variable	Implied	New Mexico
Cobalt CU	Personal-only (Share Savings)	Yes (personal/LOC/auto)	—	Implied	Nebraska
GreenState CU	Commercial lending (not cash-secured)	Yes ("ITIN or SSN")	—	Unverified	IA/IL/NE
MariSol FCU	Personal-only; biz loans need 2-yr returns, no startups	Unverified	Savings/certificate	Unverified	AZ

Best CU picks: **LES People's FCU** (the clearest *secured business* product), and **Self-Help FCU + Point West** for ITIN-friendly share-secured loans up to 100% that report to bureaus (Self-Help is joinable from anywhere via a \$5 donation). The realistic play for most: a **personal** share-secured loan used for the business — universally available, no/low credit check, builds your consumer file.

PART 4 — Community, CDFI, MDI & Ethnic-Market Banks

These institutions are the most **ITIN-friendly at the relationship level**, and several deal in deposit-secured lending — but they rarely *publish* a CD-secured business product, so most require a branch conversation.

Bank	Type	CD-secured business loan?	ITIN	Notable detail
Carver Federal	MDI/CDFI (NYC)	Yes — microloan \$500–\$25k secured by Carver savings/CD	Verify	Must keep Carver Business Checking; built to establish credit
East West Bank	Chinese-American	"Secured working capital" (biz unverified)	ITIN secured card (deposit = limit); ITIN accounts OK	Demonstrably does ITIN deposit-pledged lending (card)
Royal Business Bank (RBB)	Asian-market	Likely (CD-reserve qualification; biz LOC unverified)	Built for non-traditional/foreign borrowers	Deposit 12–24 mo reserves into a Term CD, no income docs
Spring Bank	CDFI (NYC)	"CD Secured Loan" = personal; business unverified	Strong (accepts IDNYC)	Reports monthly (credit-builder)
Sunrise Banks	CDFI (MN)		Yes (ITIN in person)	Credit-builder reports monthly

Bank	Type	CD-secured business loan?	ITIN	Notable detail
		Credit-builder (CD-held) = personal; business unverified		
Ponce Bank	MDI-Hispanic (NY)	Unverified	Yes (SSN or ITIN for accounts)	CDs from \$1,000
Beneficial State	CDFI (CA/OR/WA)	Unverified (SBA-focused)	Yes (documented — incl. AB-60)	ITIN lending documented (consumer auto)
Bank of Hope / Hanmi / Cathay / Woori / Open / Preferred / US Metro	Korean/ Chinese-American	Unverified (relationship/branch product)	Unverified	All offer business CDs; deposit-secured lending is a known relationship tool — confirm by phone
IBC Bank	Border (TX/OK)	Unverified	Caution	Its "Foreign National" program is W-8BEN real-estate for foreign residents — NOT an ITIN business loan ; don't conflate

Watch-outs flagged by the research: IBC's Foreign National program is *not* an ITIN product. Cathay's digital deposit agreement *bars pledging the account as collateral* (branch CD loans may differ). For every ethnic-market bank, the CD-secured business product and ITIN acceptance are unpublished branch decisions — confirm directly.

PART 5 — Deposit-Secured Business Cards & Credit-Builders (adjacent options)

If a CD-secured business *loan* proves hard to find, these deposit-collateralized products build **business** credit similarly.

Product	Type	ITIN	Deposit	Reports to
Credit Strong Business	Cash-secured installment builder	Yes (SSN or ITIN)	Funds locked in commercial savings	Equifax Bus, Experian Bus, PayNet, SBFE
BofA Business Advantage Secured cards/LOC	Secured card / LOC	ITIN on biz apps	\$1,000+ (= limit)	Business bureaus
FNBO Business Edition Secured Mastercard	Secured card	Unverified	~\$2,200 min; limit \$2k–\$10k	All 3 consumer + D&B (builds both)
Valley Visa Secured Business	Secured card (in-person, AL/CA/FL/NJ/NY)	Unverified	110% of limit (≤~\$27.5k)	D&B, Experian Bus, Equifax Bus
Nav Prime	Builder charge card (no deposit)	Probable — confirm	None	D&B, Experian Bus, Equifax Bus, SBFE
eCredable Business Lift	Bill-reporting builder	Unverified	None	D&B, Experian Bus, Equifax Bus, Creditsafe
~~Wells Fargo Business Secured~~	DISCONTINUED	—	—	—
~~Union Bank (MUFG) Business Secured~~	DISCONTINUED (absorbed by U.S. Bank)	—	—	—

Note: Many secured *business cards* still require an **SSN-based personal guarantee** — a real obstacle for ITIN-only owners. A **cash/CD-secured business loan or LOC usually does NOT** require a PG (the deposit substitutes for it), which is why it's often a cleaner ITIN path than a secured card.

PART 6 — Recommended Action Plan

1. **Open a CD / share certificate at an ITIN-friendly institution.** A **credit union with an explicit ITIN program** is the safest bet (Self-Help FCU — joinable nationwide; Point West; LES People's; Neighborhood Trust). Banks like **BMO, Citi, Ponce, BofA** accept ITIN for the deposit too.
2. **For a business product specifically:** apply to **Credit Strong Business** (explicit ITIN, reports to 4 business bureaus), **BofA Cash Secured Business LOC**, **Carver** (NYC), or **LES People's FCU**.
3. **For a pure cash-collateral loan in your name** (easiest underwriting): a **personal** CD/share-secured loan at Regions, TD, BMO, Self-Help, or Point West — up to 100% of your deposit, used for the business.
4. **Ask every lender the make-or-break questions:** Do you accept an **ITIN** to open the deposit *and* borrow? **LTV and rate** (CD rate + how many points)? Does the CD **keep earning** and the lien **release as I pay down**? **Do you report to the bureaus — under my ITIN — and to which (business vs consumer)?** Is a **personal guarantee** required?
5. **Pair** a CD/share-secured loan (installment history) with an ITIN-accepting secured card (revolving history). In ~3–6 months of on-time payments you generate a scoreable file.

Quick Reference — Best ITIN + CD-Secured Picks

Need	Best options
Business credit-builder, explicit ITIN, reports to business bureaus	Credit Strong Business
Real business LOC/card secured by deposit	BofA Cash Secured Business LOC / secured card
Deposit-secured business microloan (mission bank)	Carver Federal (NYC) · LES People's FCU (NYC)
Share-secured loan, ITIN, up to 100%, reports to bureaus	Self-Help FCU (nationwide via \$5) · Point West (OR)
Personal CD-secured loan (used for business), easy approval	Regions (non-customers apply online) · TD · BMO
Published CD-secured business loan at a smaller bank	Fulton · Bank of Utah · Arvest

Important Caveats & Methodology

- **The product you asked about is genuinely niche.** CD-secured *personal* loans are everywhere; CD-secured *business* loans (business-named, business-bureau-reporting) are rare and often arranged at a branch. We labeled confirmed business products vs. personal products an owner can use, rather than overstating the list.
- **ITIN acceptance is firmly confirmed only where stated** — *explicitly*: Credit Strong Business, East West (secured card), and the ITIN-program credit unions/banks for *deposits* (Self-Help, Point West, LES People's, Neighborhood Trust, Latino Community CU, Sunrise, Spring Bank, Ponce, BMO, Citi). For a CD-secured *business loan* specifically, most ITIN answers are **"likely workable, confirm at branch,"** because secured lending carries little credit risk but the policy is rarely published.

- **Reporting is lender-specific and must be verified** — especially that the lender reports **under your ITIN**. Confirmed business-bureau reporters here: **Credit Strong Business** (Equifax Bus/Experian Bus/PayNet/SBFE) and the secured business cards (FNBO also reports to all 3 consumer bureaus + D&B).
 - **Discontinued — do not pursue:** Wells Fargo Business Secured card; MUFG Union Bank Business Secured Visa (absorbed by U.S. Bank).
 - **WebFetch was blocked (HTTP 403)** on many bank/CU pages (BofA, Wells, Regions, Popular, Spring Bank, Carver, and others). Findings rely on search-result snippets cross-referenced with reputable third parties (NerdWallet, Bankrate, WalletHub, LendingTree, Nav, FitSmallBusiness, CUInsight, Inclusiv, American Banker) plus directly-readable pages. Items that couldn't be confirmed to a primary source are marked **unverified**.
 - **Not legal or financial advice.** Confirm current product availability, ITIN policy, and bureau reporting directly with each institution.
-
